Year One Panda	Textile – Christmas fayre	Scones	Construction
Year Two Panda	Textile	Biscuits	Construction
Year One Koala	Construction - air raid shelters	Textile	Pizza/bread
Year Two Koala	Construction	Textile	Salad

NB- Harvest festival can often cover a lot of the ‘where does food come from objectives’

There should be at least one food topic per year and at least one textile and one construction over a two year period. The detailed planning ensures the objectives in that strand are covered whilst each child is in that class.

All ‘Eatwell’ information can be found here: <https://www.gov.uk/government/publications/the-eatwell-guide>

Curriculum Intent

The DT curriculum is designed to equip our children with practical skills that they will be able to use throughout their lives. Textile work, cooking and construction skills are repeated and built upon on a yearly basis to ensure our children are confident in each of these areas. There is an emphasis on healthy eating and preparation in the food part of the curriculum. Where appropriate, topics are linked to other areas of the curriculum e.g. history.
