Curriculum Intent

This two-year plan aims to engage children in a love of language learning, consider themselves citizens of the world, increase their cultural capital, instil a desire to travel to different places. Our language curriculum allows the children to build knowledge of other parts of the world, and the different cultures.

It allows them to learn another language and to discover the links between different languages.

The curriculum content is stimulating, enjoyable and challenging. It offers them inspiration to communicate and use language creatively and imaginatively. There is a clear progression of skills with different expectations at each stage of the children's language learning (see skills progression document).

Intercultural Understanding Language competence and intercultural understanding are an essential part of being a citizen. Children will develop a greater understanding of their own lives in the context of exploring the lives of others. They learn to look at things from another's perspective, giving them insight into the people, culture and traditions of other cultures. Children will become more aware of the similarities and differences between people, their daily lives, beliefs and values. We think the MFL curriculum supports the promotion of fundamental British values at Shebbear.
